Figure 3 - Vehicle Identification Number Explanation

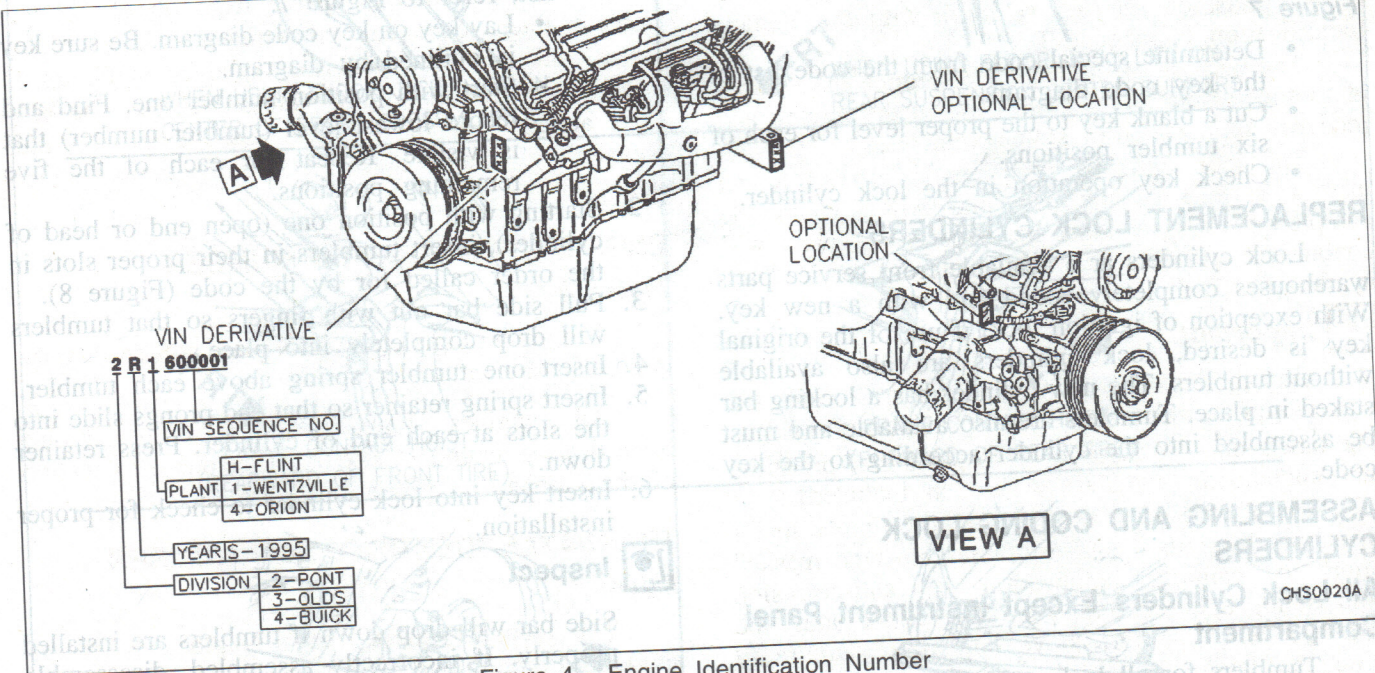

Figure 4 - Engine Identification Number

NOTICE: When jacking or lifting a vehicle at the frame side rails or other prescribed lift points, be certain that lift pads do not contact the catalytic converter, brake pipes or cables, or fuel pipes. Such contact may result in damage or unsatisfactory vehicle performance.

The centerline of gravity on front-wheel-drive vehicles is further forward than on rear-wheel-drive vehicles. Therefore, whenever removing major components from the rear of a front-wheel-drive vehicle while supported on a hoist, it is mandatory to support the vehicle in a manner to prevent the possibility of the vehicle tipping forward.
